

GUIDELINE

EUDR for SMEs

Easy to understand and implement

Am I affected by the EUDR?

You are affected by the EUDR if you trade, process, import, export, or distribute products or derivatives listed in [Annex I](#) within the EU. Regulated commodities include:

EUDR for SMEs – Deadlines & Exemptions at a Glance

In general, SMEs must comply with the EUDR by **December 30, 2025**.

If your company was not previously subject to EUTR and meets two of the following three criteria, you qualify for an extended deadline until **June 30, 2026**:

- ✓ **Less than 50 employees**
- ✓ **Annual turnover below €10 million**
- ✓ **Balance sheet total below €10 million**

The following companies may rely on the reference numbers provided by their upstream suppliers:

- ✓ **Exporters of products** that have already been placed on the EU market and for which due diligence obligations have been fulfilled
- ✓ **Manufacturers** using only materials or intermediates already placed on the EU market
- ✓ **Distributors** who only sell products already placed on the EU market

What needs to be done?

Achieve EUDR compliance in five steps:

1. **Collect** all relevant data on your suppliers, products, orders, as well as geo- and harvesting data.
2. **Conduct risk assessments** to verify deforestation-free status and legality.
3. **Implement internal tracking** to reconcile inbound and outbound product flows.
4. **Prepare a Due Diligence Statement (DDS)** and document full compliance with all requirements.
5. **Submit the DDS to the EU** and provide reference numbers to your customers.

Why osapiens Easy Start?

- ✓ **Get started immediately** with best-practice templates
- ✓ **Stress-free** thanks to automated processes and minimal effort
- ✓ **100% compliance** with all EUDR requirements
- ✓ **Fair and transparent**: flat-rate pricing with no hidden costs
