

Effortless Disclosure Management: Turning compliance into business value

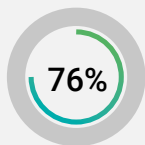

Disclosure requirements are becoming increasingly complex. Companies must collect and consolidate vast amounts of data with accuracy, while complying with an expanding range of regulatory frameworks such as CSRD or EU Taxonomy.

Beyond regulatory compliance, effective disclosure management brings financial and non-financial data together, ensuring it is reliable, audit-ready, and available on demand. This empowers companies to **respond quickly** to investor requests, **improve decision-making**, and **build lasting trust** with stakeholders.

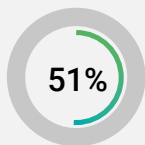

Tangible Strategic Value and Key Challenges

Effective disclosure management delivers measurable business benefits.

Transparent reporting enhances brand reputation, strengthens stakeholder trust, and positions companies as attractive employers. Many organizations also leverage sustainability disclosures to justify higher pricing by demonstrating accountability, long-term value, and purpose-driven performance. However, a [Deloitte survey](#) shows that many organizations still face significant hurdles:

of companies cite **data quality** as their biggest reporting challenge

point to **insufficient processes and controls**

A structured, technology-enabled approach can help overcome these obstacles, ensuring accurate, reliable, and auditable data while unlocking its strategic potential.

The Solution: osapiens HUB for Disclosure Management

The osapiens HUB for Disclosure Management transforms these challenges into an integrated, automated process that goes beyond compliance.

Full flexibility in reporting: Create and adapt reports to evolving frameworks, audiences, and data needs easily, without external tools or IT support.

Seamless compliance & communication: Export reports in all required formats for smooth internal reviews and regulatory-ready submissions.

Built-in accuracy: Automate XBRL tagging to cut manual effort, eliminate errors, and guarantee CSRD compliance.

The osapiens HUB platform not only ensures compliance but also **empowers companies to manage disclosures proactively, efficiently, and with lasting impact.**

Take a deeper dive

osapiens develops cloud-based software solutions (SaaS) that empower companies to drive sustainable growth across their entire value chain. The scalable, AI-powered platform **osapiens HUB** combines powerful data integration with real-time analytics to increase **transparency** and boost **efficiency**. Headquartered in Mannheim, Germany, osapiens supports more than 2,000 companies worldwide with a global team of over 500 employees.
